Invitation

Dear colleagues,

We, the Department of Obstetrics and Gynaecology, University Hospital of Freiburg, want to invite you to join our sixth mutual meeting in November 2017.

In times of limited financial resources and growing importance of sustainability, disposables are getting more and more questionable.

On the first day of the course you will experience surgery with the most up-to-date equipment in our operation rooms, including the newest developments in reusable technology. Open surgical procedures and laparoscopies will be shown. These operations will be accompanied by lectures, explanations of the technical background, and demonstrations of the instruments.

On the second day, the participants will have the opportunity to work with the equipment in the wet-lab. Intensive hands-on training will be provided by experienced trainers.

We wish all participants an interesting and fruitful insight into the new techniques. We are looking forward to the practical exchange and interesting discussions with colleagues from different countries.

Prof. Dr. med. Gerald Gitsch
Scientific Director

PD Dr. med. Maximilian Klar, MPH
Organization

Program

Tuesday, November 28th, 2017
